

PICNIC TABLE ASSEMBLY INSTRUCTIONS

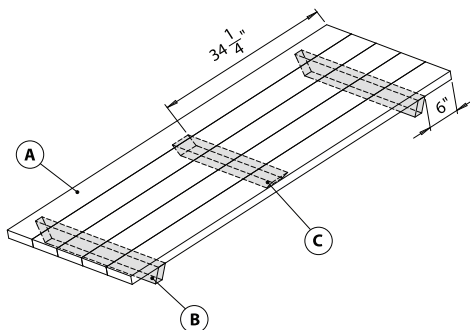

PARTS LIST

- (A)** Tabletop Boards (5) - 2" x 6" x 6'
- (B)** Tabletop Supports (2) - 2" x 4" x 26-3/4"
- (C)** Middle Tabletop Support (1) - 2" x 4" x 22-1/4"
- (D)** Leg Cross Support (2) - 2" x 4" x 54"
- (E)** Table Leg (2) - 2" x 4" x 31"
- (F)** Angled Leg Support (2) - 2" x 4" x 22-1/4"
- (G)** Seat Board (2) - 2" x 8" x 6'

HARDWARE LIST

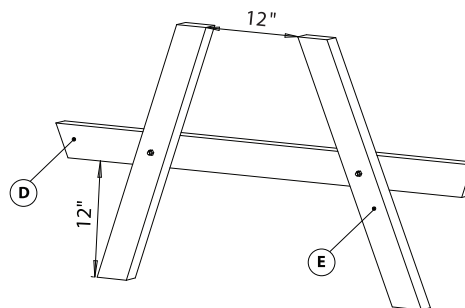

- (1)** 5/16 x 3-1/2 Carriage Bolt (4)
- (2)** 5/16 x 2-1/2 40 Screw (60)
- (3)** 5/16 Nut (4)
- (4)** 5/16 Washer (4)

1 BUILD THE TABLETOP

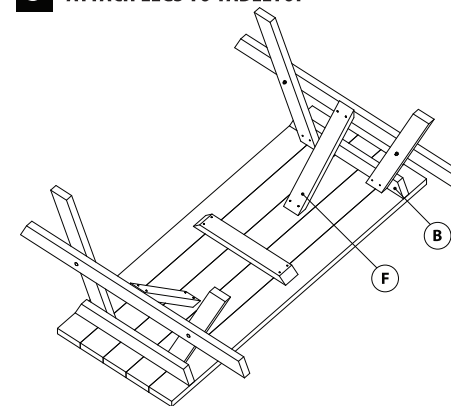

- Rest Tabletop supports **(B-C)** on a flat surface and place five equally spaced Tabletop boards **(A)** on top.
- Top supports **(B)** should be positioned 6" in from the edge of the Tabletop boards **(A)** and the Middle support **(C)** should be 34-1/4" in.
- Fasten Tabletop boards **(A)** to Top supports **(B)** and Middle support **(C)** using provided screws **(2)**.
- For each Tabletop board **(A)**, install two screws into each of the three support boards beneath it, for a total of 6 screws per board.

2 ASSEMBLE THE LEGS

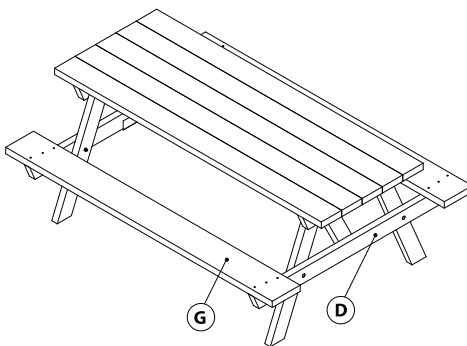

- Form an A-frame so the footing of the legs lie level with the ground.
- Use Carriage Bolts, Washers and Nuts **(1, 3, 4)** to secure the Legs **(E)** to the Cross support **(D)**. (Leave carriage bolts and nuts finger tight until fully assembled)
- Leave a 12" spacing between the top of the leg boards.
- Secure the Cross support **(D)** 12" above the ground.
- Repeat steps 1-4 to create another set of legs.

3 ATTACH LEGS TO TABLETOP

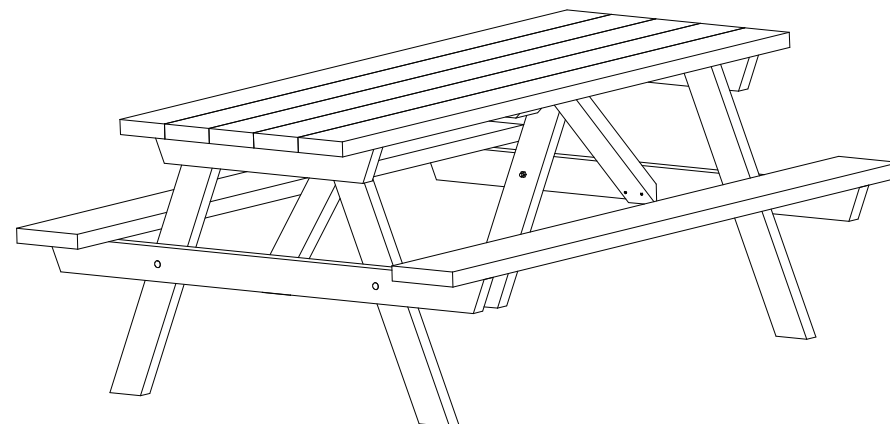

- Flip the Tabletop and rest on a flat surface. Stand the leg assembly against the Tabletop supports **(B)**.
- Fasten the Tabletop support **(B)** to each of the Legs **(E)**, using two of the provided wood screws **(2)**.
- With the Legs securely fastened, install the Angled leg support **(F)**. Attach the Angled support to the Leg cross support **(D)** and the center Tabletop board **(A)** with two screws **(2)** at each point.
- Repeat steps 1-3 for other side of Table.

4 INSTALL THE SEAT BOARDS

- Flip the table onto its legs, ensuring it sits flat on the ground.
- Place Seat board **(G)** on top of the Cross board **(D)**, making sure outside edges are flush.
- Secure Seat board **(G)** to Cross board **(D)** using three screws **(2)** on each side.
- Repeat steps 1-3 for other side of table

- ✓ Table does not rock
- ✓ Bench seats are level
- ✓ All Hardware is tight
- ✓ Sand any rough edges
- ✓ Apply stain if desired
